HONOURING ONE OF OUR OWN

Our 2018 Keynote Demonstrator, John Wessels will be using this symposium as his last public appearance and has designed his presentations along the theme "**Breaking Your Boundaries**". As his parting note John will inspire woodturners to take the plunge and break out of their mould. To this end John will take us on a journey of his own experiences and how through constantly challenging himself to move beyond the confines of his existing skills base he has been able to excel in the craftsmanship of woodturning.
